

# Delrole

## Command: Delrole

### Module: Roles

Description: Delrole will de-register a discord role from the 'custom role' list. Optionally the bot will also ask if you wish to delete the role from your server.

#### Usage:

!delrole @role

!delrole 1234567890

Will delete the role from the custom role list and then ask if you wish to delete the role from the server as well.
